

After 12 years working for Microsoft as Data&AI Consultant, I decided to embrace the next challenge of my professional journey, founding OJO Consulting. I have more than 15 years of experience in data management, architecture designing, and implementation of BI and Big Data solutions. I am passionate about innovation and solving complex problems. My mission is to support organizations in their digital journey to help them optimize their performance and productivity.

Experiences

+ April 2024 : OJO Consulting - CEO & Founder

French Consulting company in Digital Services, specialized on Data Management Solutions, mainly powered by Microsoft Azure Cloud Services

+ 2024 (12.5 years) : Microsoft France Consulting Services - Data&AI Consultant

Consulting, technical expertise, integration and pre-sales missions on Microsoft data technologies. I have contributed to the success of numerous major projects for clients in various sectors, enabling them to efficiently exploit and maximize the potential of their data. I first worked with on premise technologies like SQL, SSIS, SSAS, SSRS, DQS, MDS, APS. Afterward I naturally switched with the industry towards the Cloud, focusing on technologies like Azure SQL, Azure DWH, Azure DataFactory, Azure Synapse Analytics, PowerBI, Azure DevOps and more recently Microsoft Fabric

+ 2011 (6 months) : BI Consulting - Business Intelligence Consultant

Business Intelligence project on risks assessment for Swiss Life insurance company
